PyGanic® GARDENING

Ideal for homeowners, tough on pests

MGK's PyGanic® Gardening delivers what every home gardener wants – consistent, reliable knockdown and kill of the most damaging garden pests. PyGanic® Gardening kills a broad spectrum of insects from aphids to whiteflies and can be used on ornamentals, leafy vegetables, all types of fruit and nut trees.

PyGanic® Gardening is made from botanically-derived active ingredients – pyrethrins, exacted from chrysanthemums – and is very effective at killing garden pests.

PyGanic® Gardening Features

- *For organic gardening*
- *Rapid knockdown and kill of 100 insects including aphids, beetles, caterpillars, fruit flies, mites and thrips*
- *Flushes insects and mites from hiding*

Tips for best use

- Apply PyGanic® Gardening when target insects are active
- PyGanic® Gardening is a contact insecticide – good coverage is the key
- Use spray equipment that will provide best coverage and direct contact with pests
- Do not make applications in the rain
- Do not allow adults, children or pets to enter the treated area until sprays have dried
- Do not use indoors or on plants that are for sale
- See the label for complete directions for use
- Store in cool, dry location out of direct sunlight to ensure maximum shelf life

PyGanic® Gardening for rapid knockdown and kill of the most destructive pests.
